

LOC'AX Multi 3

Loc'AX multi 3 meets the needs of different plant species, contains nutrients needed by young plants, which are not otherwise in available form (nitrogen, phosphorus, sulfur, trace elements).

Chemical composition

- 12 % N₂
- 41 % P₂O₅
- 2 % MgO
- 5 % SO₃
- 0,08 % Cu
- 1 % Mn
- 0,02 % Zn

Physiological effect on the plant

- Better phosphorus utilization
- Faster root development
- Stronger development of the root system
- Increases the availability of phosphorus
- Uniform germination
- Improved nutrient utilization potential
