

AGAINST FOAMING
FOR HERBICIDE MIXTURES

STOP FOAM

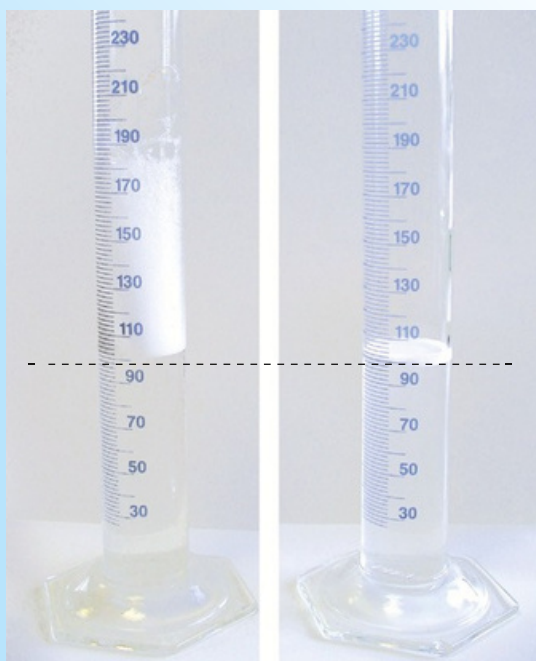

294 g/L dimethylpolisiloxan

APPLICATION

Blend of herbicides
All cultures

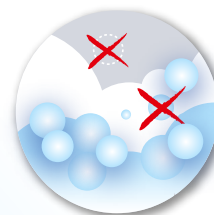

*An anti-foam agent for
mixtures of herbicides!*

WITHOUT
STOP FOAM

WITH
STOP FOAM

PRODUCT BENEFITS

It prevents the formation of foam and eliminates the existing foam.

It facilitates the filling of the tank and thus avoids pouring sprinkling from the tank.

APPLICATION INSTRUCTIONS

STOP FOAM® is advisable to add to the container at the beginning of filling, before adding other ingredients. Before use, stir the product.

DOSE: 1.4 mL/100 L

PACKAGING: 250 mL
