

# ES Advisor

The most productive variety in its vegetation group !

## Variety characteristics

- Early variety (Group 0)
- A high-yielding variety with a yield potential of over 5 t/ha
- Plant height: low
- 1st pod height: 11,9 cm
- Hilum color: dark brown
- Flower color: violet
- Thousand Kernel Weight: 220 g
- Good lodging tolerance
- Good pod shattering tolerance

## Quality characteristics

- Protein content: 39 - 40 %
- Oil content: 21 - 22 %

## Agro-tehnickal characteristics

- Optimal sowing date: from April 20 until May 10
- Recommended sowing density: 55 -60 grains/m<sup>2</sup>
- Distance between rows: 25 - 50 cm

## Diseases tolerances

### Phytophthora blight

### Sclerotinia

### Bacteriosis
