

NEW

ES Mediator

The new winner among soybeans !

Variety characteristics

- Medium late variety (Group I)
- Variety with high yield potential over 5,5 t/ha
- Plant height: medium
- Hilum color: black
- Flower color: violet
- 1st pod height: 14,3 cm
- Good pod shattering tolerance

Quality characteristics

- Protein content: 40 - 42 %
- Oil content: 20 - 22 %

Agro-tehnickal characteristics

- Optimal sowing date: until April 20
- Recommended sowing density: 50 -55 grains/m²
- Distance between rows: 50 - 60 cm
- Uniform ripening for quick and easy harvesting
- Robust plant - quickly closes the inter-row space

Diseases tolerances

Diaporthe

Sclerotinia
