

ES Tribor

Leader in production !

Variety characteristics

- Early variety (Group 0)
- High productivity variety
- Plant height: 85 cm
- Hilum color: dark brown
- Flower color: violet
- Type of Growth: semi-determinated
- 1st pod height: 12,9 cm
- Thousand Kernel Weight: 212 g
- The variety is moderately sensitive to the active substance pendimethalin

Agro-tehnickal characteristics

- Optimal sowing date: by the end of April
- Recommended sowing density:
 - 55 -60 grains/m² in dry farming
 - 40 - 50 grains/m² in irrigation conditions
- Distance between rows: 25 - 50 cm

Quality characteristics

- Protein content: 40 - 43 %
- Oil content 21 - 22 %

Diseases tolerances

Phytophthora blight

Sclerotia

Bacteriosis
