

ES Mediator

New winner among soybeans!

Variety characteristics

- › Medium late variety (Group I)
- › A variety with high production potential
- › Indeterminate variety
- › Plant height: medium height
- › Hilum color: black
- › Flower color: purple
- › Height of the first pod: 14.93 cm
- › Weight of one thousand grains about 211 g
- › Successor to ES Pallador

Quality characteristics

- › Protein content: 40 - 42 %
- › Oil content: 20 - 22%

Agro-technical characteristics

- › Optimum sowing time: until April 20
- › Recommended sowing density:
- › 50 - 55 grains/m²
- › Recommended row spacing: 50 - 70 cm
- › High tolerance to lodging
- › High tolerance to pod cracking
- › Robust plant - quickly closes rows

Disease resistance

› White rot:

izrazito niska niska srednja visoka izrazito visoka

› Black spotting

izrazito niska niska srednja visoka izrazito visoka
